SUMMARY

Senior Full-Stack Engineer with **15 years of software engineering experience** building and supporting production applications across frontend, backend, APIs, databases, and cloud environments. Hands-on with **React, Next.js, TypeScript, Node.js, Python, PHP, PostgreSQL, REST/GraphQL, and AWS**. Experienced with B2B SaaS, e-commerce, real estate, digital content, and enterprise data systems, with strengths in **API design, integrations, performance optimization, production troubleshooting, CI/CD, and technical leadership**.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, SQL

Frontend: React, Next.js, HTML, CSS, Vue, Angular, Flutter

Backend & APIs: Node.js, Express, NestJS, Django, FastAPI, Flask, Laravel, Symfony, REST, GraphQL

Data: PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps: AWS, Docker, Terraform, CI/CD, Git, monitoring, logging

PROFESSIONAL EXPERIENCE

Sayeef Digital Agency UK — Senior Software Engineer | *United Kingdom* | *Remote* | *Aug 2023 – Present*

- Build and maintain production applications across frontend, backend, API, and database layers using **JavaScript, TypeScript, React, Node.js, Python, and PHP**.
- Develop customer-facing interfaces and integrate them with **backend services, REST APIs, databases, and third-party systems**.
- Diagnose production and performance issues across **frontend, backend, integration, and data layers** and deliver tested fixes.
- Contribute to **technical decisions, code review, testing, deployment, and production troubleshooting** with distributed teams.

ScienceSoft — Senior Software Engineer | *United States* | *Remote* | *May 2020 – Jul 2023*

- Developed production full-stack applications using **React, Next.js, TypeScript, Node.js, Python**, relational/document databases, and web APIs.
- Built and integrated **backend services, REST APIs, third-party integrations, database schemas, queries, and indexing** for customer-facing workflows.
- Resolved production issues across **frontend, backend, APIs, databases, and external integrations** and supported CI/CD and releases.

Digital Thing — Technical Lead | *Australia* | *Remote* | *Jul 2017 – Apr 2020*

- Led technical delivery of **full-stack web applications** while remaining hands-on with architecture, implementation, testing, debugging, and production support.
- Designed **APIs, database schemas, application workflows, and integrations** and supported **AWS-based production systems**.
- Reviewed code and technical designs, mentored engineers, and translated stakeholder requirements into production releases.

Thoughtworks — Full Stack Engineer | *Singapore* | *Onsite* | *Mar 2013 – Jun 2017*

- Built and maintained full-stack applications using **JavaScript, Python, relational databases, and web APIs**.
- Implemented **frontend features, backend logic, database queries, validation, and integrations** and contributed to application modernization.

IBM — Software Engineer Intern | *United States* | *Remote* | *Jul 2011 – Feb 2013*

- Supported development, testing, debugging, documentation, and **REST API** work using **JavaScript, Python, and Git**.

SELECTED PROJECTS

HELLOprint — B2B E-Commerce Printing Platform | *Senior Full-Stack Engineer* | *Netherlands* | *2025*

React • Next.js • Node.js • Express • Redis • AWS • Docker • Terraform • CI/CD

- Built customer-facing browsing, customization, and ordering functionality with **React and Next.js** and developed **Node.js/Express REST APIs** for catalogs, users, orders, and payments.
- Integrated **payment and shipping services** and improved high-traffic order processing through **API/database optimization and Redis caching**.
- Supported production deployment and operations with **AWS, Docker, Terraform, and CI/CD**.

Connected Railway — B2B Multi-Tenant SaaS | *Full-Stack Engineer* | London, UK | 2024

React • Next.js • PHP • Laravel • REST • GraphQL • AWS • Docker

- Implemented **React/Next.js** workflows for job discovery, applications, onboarding, role-based routing, tenant-aware UI, search, and filtering.
- Contributed to **Laravel REST/GraphQL APIs** and improved data-heavy endpoints with **cursor pagination, query refactoring, and indexing**.

Alveoland.com.ph — Real Estate Platform | *Backend Engineer* | Philippines | 2023

PHP • Symfony • MySQL • WordPress • Docker

- Developed **PHP/Symfony** backend functionality for property data, content configuration, and lead capture, including **MySQL** schemas, queries, validation, and error handling.
- Improved media-heavy page support through **data-hydration optimization, caching, and leaner API responses**.

Splurge.art — Digital Art Platform | *Senior Full-Stack Engineer, AI Focused* | Philippines | 2023

React • Next.js • Flutter • TypeScript • Node.js • Python • PostgreSQL • Docker

- Built web/mobile interfaces and improved high-resolution media performance using **progressive loading, caching, and viewport rendering**.
- Designed **backend APIs and PostgreSQL data models** for artwork ingestion, metadata, discovery, and future AI-assisted enrichment.

Smart Communications — Enterprise Telecom Data Platform | *Senior Full-Stack / Data Engineer* | Philippines | 2021

Python • SQL • React • Node.js • ETL • Dashboards

- Built **React** dashboards and **Python/Node.js APIs, SQL queries, ETL workflows, and data models** for operational reporting.
- Improved reporting through **SQL optimization, indexing, aggregation tables, and scheduled preprocessing** and automated recurring data delivery.

EDUCATION

Bachelor's Degree in Computer Science — National University of Singapore, Singapore | Aug 2007 – May 2011
